PROFESSIONAL EXPERIENCE

Software Developer   June 2022 - September 2024
Metal Design Concept - Saint-étienne, France
- Developed an online design tool that automates the creation of perforated decorative plates, improving the firm's production efficiency.
- Collaborated with a multidisciplinary team of three professionals to successfully deliver the project.
- Enhanced customer experience by enabling users to independently design and customize plates through the website, eliminating the need for direct interaction with the company.

Teacher   January 2022 - January 2023
Complétude - Nice, France
- Delivered personalized science tutoring sessions, enhancing students' understanding and academic performance through tailored educational support.
